

## Workers' Compensation Board

If you have ongoing (or “long-haul”) medical issues due to work-related COVID-19, you may be eligible for free lifetime medical care through workers’ compensation insurance. If your illness causes you to miss work, you may also be eligible for lost wage replacement.

### Get benefits through your existing claim or file if you don’t have one

If you already have an established workers’ compensation claim for COVID-19, any lost wage benefits or ongoing medical care directly or consequently related to COVID-19 falls under that claim. If you do not have an established claim, you need to file a claim within two years of your illness.

- Visit <http://wcb.ny.gov/covid-19> for the fastest filing. Select “File a Claim,” and complete the web version of the *Employee Claim Form (Form C-3)*, or you can complete and submit a paper form.

While not all claims will be accepted, there is no harm or risk in filing a claim, even if it ends up getting denied.

Suffering ongoing complications from work-related COVID-19?  
**Workers’ compensation is with you for the long haul.**
